Terms and Conditions of Service:

The Holland Board of Public Works implemented the Renewable Energy and Energy Optimization programs in accordance with the Clean, Renewable, and Efficient Energy Act pursuant to Michigan Public Act 295 (PA295) of 2008.

The Energy Optimization charge is used to fund the Energy Smart Program for the Holland Board of Public Works customers. All residential customers are charged based on kilowatt hour (kWh) consumption. All commercial and industrial customers are charged according to the consumption tiers listed above per meter per billing cycle.

Approved:

Board of Public Works, February 28, 2011
Holland City Council, March 2, 2011
