REGULAR MEETING

The HBPW Board of Directors met
August 7, 2023
at 4:00 p.m.
625 Hastings Ave.
Holland, Michigan

Chair Thompson called the meeting to order at 4:00 p.m.

Members Present: PJ Thompson, Carolyn Maalouf, Paul Lilly, Beth Snyder, City Council Liaison Nathan Bocks, and Ex Officio Members Keith Van Beek and Dave Couch

Members Absent: Brian Lynn

Staff Present: Dave Koster, Janet Lemson, Ted Siler, Chuck Warren, Joel Davenport, Becky Lehman, Steve Bruinsma, Pieter Beyer, Steve Bruinsma, Julie DeCook, Mark Gipson

24.024 Approval of Agenda

Board Member Maalouf made a motion to approve the agenda. The motion was seconded by Board Member Snyder.

24.025 Board Minutes – Regular Meeting Minutes of July 10, 2023, and Special Meeting Minutes of July 24, 2023

As part of the Consent Agenda, the Board of Directors approved the minutes as presented.

24.026 Declaration of Surplus Material

The HBPW has identified materials and equipment which are no longer pertinent for use. The attached list shows the items determined as excess, obsolete, or uneconomical to repair. Once declared surplus, the items will be disposed of in the following order:

1. Offered to other City departments
2. Sell to companies specializing in inventory disposal
3. Auction (utilizing GovDeals online portal)
4. Public auction (in limited cases)
5. Donation
6. Recycling or waste disposal

As part of the Consent Agenda, the Board of Directors approved the attached list of items as surplus.

24.027 Electric Distribution Easements for Washington Boulevard Electric Distribution Construction

As part of continuing efforts to increase system reliability by undergrounding electrical distribution cables, HBPW has been working to complete an overhead to underground conversion on Washington Boulevard from 9th Street to 16th Street, as well as Washington Avenue from 16th Street to 19th Street. This conversion will follow the Van Raalte Avenue conversion, one block over, while implementing lessons learned and best practices from previous projects.

* Red italics indicate information or discussion added during the meeting and/or action taken.
Due to narrow road right-of-ways along Washington Boulevard/Avenue, the majority of electrical boxes required in the project scope were unable to be installed in road right-of-ways. In order to best meet the project specific requirements, the plan has been designed to locate the required boxes outside of the right-of-way on public and private lands. Easements for these locations were previously approved.

Additional easements are required to run secondary electrical lines from the new pad mount transformer locations to the first pole in the backyards, along private property lines. In many cases, the new underground lines will follow the current overhead lines that will be removed. An easement is needed to properly convert these overhead lines to underground. Enclosed are all of the 21 easements we pursued.

The easement values represent the fair market value of the land being used. An additional sum was offered if the parcel owners signed in a timely manner; 10 signed within 30 days, 9 signed within 60 days, and 2 signed within 90 days.

As part of the Consent Agenda, the Board of Directors approved the following easements pending approval as to form with the City Attorney:

Easement 1:
Approve a grant of Power Line Easement with Daniel Luyk and Leah Luyk, the property owners, ("Grantor"), for the parcel located at 202 W. 18th St., Holland, Michigan 49423, with compensation in the amount of $400.00. AND

Easement 2:
Approve a grant of Power Line Easement with Joshua A. Westhouse and Alison D. Westhouse, the property owners, ("Grantor"), for the parcel located at 211 W. 17th St., Holland, Michigan 49423, with compensation in the amount of $200.00. AND

Easement 3:
Approve a grant of Power Line Easement with Jordi Fuentes and Keren Fuentes, the property owners, ("Grantor"), for the parcel located at 240 W. 9th St., Holland, Michigan 49423, with compensation in the amount of $200.00. AND

Easement 4:
Approve a grant of Power Line Easement with Kenneth C. Warren and Robin L. Warren, the property owners, ("Grantor"), for the parcel located at 205 W. 15th St., Holland MI 49423, with compensation in the amount of $200.00 for property owner(s). AND

Easement 5:
Approve a grant of Power Line Easement with Steven J. Kemmer, whose address is P.O. Box 324 Macatawa, MI 49434, and the property owner, ("Grantor"), for the parcel located at 295 Washington Blvd, Holland, Michigan 49423, with compensation in the amount of $800.00. AND

Easement 6:
Approve a grant of Power Line Easement with Daniel R. Chmura and Meagan J. Chmura, the property owners, ("Grantor"), for the parcel located at 219 W. 15th St., Holland MI 49423, with compensation in the amount of $200.00 for property owner(s). AND

Easement 7:
Approve a grant of Power Line Easement with Mark Voss, the property owner, ("Grantor"), for the parcel located at 215 W. 15th St., Holland MI 49423, with compensation in the amount of $200.00 for property owner(s). AND

* Red italics indicate information or discussion added during the meeting and/or action taken.
Easement 8:
Approve a grant of Power Line Easement with Ronald L. Alberts and Jane Alberts, the property owners, (“Grantor”), for the parcel located at 201 W. 15th St., Holland, Michigan 49423, with compensation in the amount of $200.00. AND

24.030 Country Club and Legion Park Closeout with Extended Limited Warranty Agreement

Milbocker and Sons, Inc was the low bidder for the Country Club project and was awarded the
project. BPW staff approached Milbocker and asked for the project pricing to be extended into
Legion Park. Milbocker agreed to holding the unit pricing and the Board approved a change
order to the Country Club project adding the Legion Park project to the Country Club contract.

In February of 2023, the water main in Legion Park experienced a break and the investigation
revealed that portions of the water main had been over-belled. Over-belling is a construction
workmanship defect that is the result of pushing pipe joints too closely together. Research by
staff yielded that over-belling is a common issue with PVC water main pipe; and although it is a
defect, the consequences of the defect are not typically as severe as originally feared. A neigh-
boring utility has reported that they experienced over-belling of pipe installed in the 1980s and have
not seen any decrease in the performance of the pipe since then. Additional detail on the causes
and effects of over-belling is also included as an attachment.

Although the over-belling has been reported to be a non-critical defect, staff still pursued addi-
tional warranties from Milbocker in the event additional repairs are needed to address the defect.
Staff entered into negotiations with Milbocker and has reached an agreement on a proposed
Extended Limited Warranty Agreement which extends the contract's warranty through November
2027. If more than two water main breaks or failures resulting from over belling occur in that time
period, HBPW would have the option to extend the warranty for an additional two years or require
Milbocker to perform a trenchless lining of the defective water main.

* Red italics indicate information or discussion added during the meeting and/or action taken.
Recommendation: The Board of Directors approved an Extended Limited Warranty Agreement with Milbocker and Sons, Inc.
