

HOLLAND BOARD OF PUBLIC WORKS

Residential Energy Efficiency Program 2023 Rebate Application

Application Checklist

Required Attachments:

- Completed and signed customer information sheet including electric account number (Page 3)
- Completed rebate worksheet (Page 4)
- A copy of invoices/receipts indicating the make, model, payment in full, and date of purchase
- Proof of ENERGY STAR® certification for all appliances, lighting, and heat pump water heaters
- The AHRI certificate for central air conditioning units and heat pumps
- Optional: Tool recycling receipt if applying for electric tool bonus
- Optional: Panel upgrade electric permit

**Failure to provide required documentation may result in delay of receiving your rebate.*

Send Application To:

EnergySmartHome@hollandbpw.com OR

Energy Smart Home
Holland Board of Public Works
625 Hastings Avenue
Holland, MI 49423

- Your completed application and the required documents must be received by December 31, 2023.
- Limited funds are available. Please allow 4-6 weeks to receive your Energy Smart rebate from the time your completed application is received.

Click [here](#) to find your AHRI Certificate.

**Not required for AC tune-up*

HOLLAND BOARD OF PUBLIC WORKS

Residential Energy Efficiency Programs

Energy Waste Reduction (EWR) Program

Holland BPW has had an Energy Waste Reduction (EWR) program for more than a decade. This program provides incentives to help customers replace existing electric equipment with more energy-efficient options.

The classic example of this program is replacing incandescent light bulbs with LED light bulbs. The LED uses just 9 watts compared to the 60 watts of an incandescent bulb. Other examples include buying ENERGY STAR appliances or buying a new air conditioner with a SEER rating above the federal minimum of 14.

Beneficial Electrification (BE) Program

Holland BPW is now offering Beneficial Electrification (BE) rebates to help customers replace existing fossil-fueled equipment, e.g., gasoline or natural gas, with more efficient electric equipment under the following conditions:

1. The operating cost to the customer is expected to be the same or cheaper
2. There is an estimated net reduction in the carbon emissions impact of the switch

Unless a BE measure meets both of these criteria, it is not offered as part of our program. Examples of BE rebates include switching from a natural gas furnace to a heat pump or replacing a gasoline lawn mower with a battery-powered mower.

Please Note: Many BE measures included in our program may also be eligible for additional rebates from other entities at the local, state, or national level.

To talk to someone to learn about the rebates for which you may be eligible, contact our team:

ENERGY STAR Freezer – Chest or Upright	Must have ENERGY STAR logo to Qualify 		\$15	\$
ENERGY STAR Dishwasher	Must have ENERGY STAR logo to Qualify 		\$10	\$
ENERGY STAR Ceiling Fan (with LED lights; excludes bath fan)	Must have ENERGY STAR logo to Qualify 		\$25	\$
ENERGY STAR Air Purifier	Must have ENERGY STAR logo to Qualify 		\$50	\$
Electric Lawn Tools				
String Trimmer	If you are only buying an electric tool, choose "New Electric Tool Only." If you are purchasing an electric tool and recycling the corresponding gas tool at PADNOS Black River Recycling, choose "New Electric Tool along with Recycled Gas Tool." See p. 5 for more details.	New Electric Tool Only	\$25	\$
		New Electric Tool <i>along with</i> Recycled Gas Tool	\$50	
Leaf Blower		New Electric Tool Only	\$25	\$
		New Electric Tool <i>along with</i> Recycled Gas Tool	\$50	
Lawn Mower		New Electric Tool Only	\$50	\$
		New Electric Tool <i>along with</i> Recycled Gas Tool	\$150	
Snow Blower	New Electric Tool Only	\$50	\$	
	New Electric Tool <i>along with</i> Recycled Gas Tool	\$150		
Water Heater				
ENERGY STAR Heat Pump Water Heater (Replacing Electric Resistance Water Heater)	Must have ENERGY STAR logo to Qualify 		\$200	\$
ENERGY STAR Heat Pump Water Heater (Replacing Natural Gas or Propane Water Heater)	Must have ENERGY STAR logo to Qualify 		\$300	\$
Heat Pump – Pre-approval is recommended.		# of tons		
Cold Climate Air Source Heat Pump	Must replace electric resistance heat or natural gas furnace. See p. 5 for details.		\$1,000/ton	\$
Heat Pump ≥ 8.8 HSPF and ≥ 14 SEER	Must replace electric resistance heat or natural gas furnace with AFUE ≤ 85. See p. 5 for details.		\$500/ton	\$
Electric Panel Upgrade - Pre-approval is recommended.		Quantity		
Panel upsized to minimum 200 amps	See p. 5 for details.		\$1,000	\$
Total Incentives:				

2023 Energy Smart Residential Program Equipment Specifications and Documentation Requirements

GENERAL PROGRAM RULES

This offer is valid only for Holland Board of Public Works residential electric customers for a limited time. Offer is good while funds are available, on a first-come, first-served basis. Program begins January 1, 2023, and application must be received within 45 days of purchase and/or installation of measures **OR** December 31, 2023, whichever is later. Holland Board of Public Works reserves the right to withdraw or change this offer without notice. Rebates will not exceed purchase price. Ineligible rebate requests are subject to denial or repayment to program. All equipment must be new and installed or operated in a residential dwelling where electric service is provided by Holland Board of Public Works. If you are unsure if you are eligible for a rebate, please call 616-355-1534 to talk to the Community Energy Services Specialist.

To verify purchase, all applications must include: A copy of the invoice/receipt indicating the make, model, payment in full, and date of purchase.

See below for specific requirements and/or documents that need to be included with this application based on equipment.

EQUIPMENT SPECIFICATIONS

A/C Tune-Up: A standard A/C tune-up should include a cleaning and inspection of the indoor and outdoor coil which includes: cleaning or replacement of air filter, inspection and lubrication of blower, cleaning/inspection and lubrication of motors, checking/adjusting the refrigerant, confirmation of proper air flow, checking condensate drain, cleaning debris from and around condenser, and performing visual inspection of entire A/C system. Include a copy of the contractor's checklist that has been signed and dated by the technician with this application.

Central Air Conditioning: Include the AHRI Certificate with this application to verify efficiency for SEER 15, 16, or 17.

All heat pumps: Heat pumps must be the main method you use to heat and cool your home by replacing the gas/electric furnace and A/C. Include the AHRI Certificate with this application to verify efficiency for SEER 14+ and HSPF 8.8. Rebates cannot exceed \$4,000.

ENERGY STAR Room/Window AC Unit, Dehumidifier, Refrigerator, Freezer, Pool Pump, Electric Clothes Dryer, LED Bulb, TV, Air Purifier, Monitor and Personal Computer Products: Provide proof of ENERGY STAR certification with this application. Limit of 40 LED bulb rebates per customer per year. Refrigerator must be 10 cubic ft. or larger.

ENERGY STAR Heat Pump Water Heater: Provide proof of ENERGY STAR certification with this application. Under the Energy Waste Reduction program, a \$200 rebate is available if an electric water heater is being replaced. Under the Beneficial Electrification program, a \$300 rebate is available if a gas water heater is being replaced.

Advanced Power Strip Surge Protector: Does not require ENERGY STAR qualification. The advanced power strip surge protector must have one or more outlets that have integrated automatic (controlled) shut-off when connected equipment is not being used. Limit four rebates per customer per year.

Programmable Thermostat: Must be installed in a home with central air conditioning to qualify.

Electric Lawn Tools: Holland BPW electric customers need to make a qualifying electric lawn tool purchase to receive the rebate. Any customer seeking the recycled tool rebate for a given tool must recycle an existing gas-powered tool of the same type (e.g., mower) and comply with the following. Drain the gas-powered lawn tool of all fluids and bring it to PADNOS Black River Recycling Center located at 11531 Chicago Drive, Holland, MI 49424. Ask for a Holland BPW recycling receipt and include it with this application. Residential customers must own the units being recycled. Limit one rebate (tool-only or tool-plus-recycle-bonus) for each type of electric tool per year.

Panel Upgrade: Upgrade an existing panel to minimum 200 amp service. Must include the addition of a level 2 EV charger or at least one 240 V appliance electrification (converted from natural gas). Work must be completed by a licensed electrician. A copy of the electrical permit must be included with this application along with proof of charger/appliance purchase.

NOTE: New construction may qualify for some (but not all) of the rebates described above. Please see www.hollandbpw.com for the New Construction rebate application.
